The Global Elite Helping To Make Most of These Headlines Happen. They really are not The Global Elite but shills, lackies, and wannabe puppets of the “hidden hand” handlers who will not make public appearances. These creatures showing in the public eye are actual scape goats to be used by their hidden handlers. This does not make them any less harmless as minions of Satan, as these creatures continue to harm all life on this planet in order to satisfy their addictions to power, money, lust, and drugs. 2011 will see the continued decline in health of these minions, if not physical death. Dick Cheney, now the man with out a heart beat, has become the poster child for what is ailing these creatures; DCS, deteriorating clone syndrome. This signals a trend in their physical downfall.
