Just a mere thought !!!!!

Would it not be beneficial to everyone, that once the " Bush Administration / USGovn " allows me, the sole beneficiary of the Financial Settlement, authorized by a certain U.S. District Court on the record, to pay my civil-repatriation income taxes of USDollars 1.575 trillion immediately and directly to our US Department of the Treasury, thus THE TRADERS could lawfully use my lawful monetary cash funds " AS WORKING COLLATERAL " around the clock to meet their SPECIAL DEBT OBLIGATIONS forthwith, and we collectively can discreetly work together to protect OUR GREAT NATION, inter alia. Incidentally, we still own, manage and duly operate four (4) PROMIS units to continue to track the unauthorized WANTA funded International Trading Programmes without my personal authority/approval with my beneficial monetary funds. Strange case incidents " by others " as this still is the united states of America, inter alia.....
